Why do you wish to join SNU Chennai
 As a little boy I have always been fascinated about computers which lead to my development of interest in programming my parents noticed my curiosity towards computers and bought me a desktop. Once I got a pc and started exploring, I was amazed by the wide range of things it could perform. upon seeing this my eagerness increased immensely as to how these machines worked. I utilized the computer to research about how it worked in that process I stumbled upon programming languages. I learnt that computers could communicate with the computers through programming languages. So, I started researching about programming and came to know that there are different languages we can learn. Then I decided that I should learn programming. this interest made me choose computer science in my class 11. Then I started to research about which college to join, through internet I came to know about the wonderful opportunities provided by SSN.
 After realizing the importance of gaining formal education from a renowned institution, I decided to choose this esteemed university for my higher studies where the subject matter is vastly different and much more holistic than other universities. This university suits my interests because of its advanced academic curriculum which emphasizes on learning practical programming and problem-solving skills, machine learning, concept-based approaches Etc. and other associated factors. I hope to expand my horizon and develop a broader outlook. I also believe that stimulating discussions with my peer group and tutelage of the distinguished faculty will add significantly to my knowledge and abilities. Therefore, this University perfectly is tailor made for my requirements and this course gives me the platform to polish my skills and come out with flying colors. Advantages of university over any college is also an added feature for exposure, study and opportunities, which I am looking
 Considering afore mentioned points into consideration, I Neeraj Bandi, want to put forward my candidature for the B tech program at the esteemed SSN university.
